How difficult is it to migrate from Google to Microsoft?	There are several factors to consider when migrating from Google to Microsoft. The difficulties lie within the amount of data to be transferred along with where the data is located. We have tools such as "Mover" "Movier.io" (which is a free service to help move files from one tenant to the next). You can discuss further with one of our specialists your current situation and what you would like to have accomplished. Please note, we can also bring in our dedicated partners as needed to assist in migrations.

<p>Hello! I was in the process of preparing 501(c)3 application when I received a very large capacity building grant, which begins in a few weeks. I have a fiscal agent; they notified me about this program. Is there any way that I can do this program under their auspices this year while waiting for my 501(c)3?</p>	<p>Unfortunately, organizations that have a fiscal sponsor cannot use their sponsor's 501c3 status to get the free offerings. Each organization must have their own unique 501c3 status to qualify and get approved for the free offerings through Microsoft.</p>
